

Exam Description

NSE 6 Network Security Specialist—Securing Azure With Fortinet Cloud Security 6.4

NSE 6 Certification

The Fortinet Network Security Specialist recognizes your comprehensive skills and ability to work with the Secure Fabric products that go beyond the firewall. We recommend this certification for network and security professionals who are involved in managing and supporting specific Fortinet security products. Visit the [Fortinet NSE Certification Program](#) page for information about certification requirements.

Fortinet NSE 6—Securing Azure With Fortinet Cloud Security 6.4 Exam

The **Fortinet NSE 6—Securing Azure With Fortinet Cloud Security 6.4** exam is part of the NSE 6 Network Security Specialist program, and recognizes the successful candidate's knowledge of and expertise with Fortinet solutions in public cloud network environments based on Microsoft Azure.

The exam tests applied knowledge of the configuration and administration of Fortinet security solutions in Azure, and includes deployment and management tasks, configuration extracts, and troubleshooting scenarios.

Audience

The **Fortinet NSE 6—Securing Azure With Fortinet Cloud Security 6.4** exam is intended for network and security professionals who are responsible for the configuration and administration of an Azure cloud security infrastructure using one or more Fortinet solutions.
